FOR IMMEDIATE RELEASE:

Free Orthopaedic Presentation for Clinical Professionals

Top orthopaedic hand surgeon Dr. Vincent Ruggiero will be giving a free presentation for clinical professionals on Tuesday night, June 16th at Giuliana's Ristorante at 4105 Hylan Boulevard in Staten Island, New York it was announced today. The presentation, which will accompany a free dinner for all clinical professionals interested, will begin at 6:30 PM. Those who would like to attend must RSVP as soon as possible as seating is limited.

Dr. Ruggiero, the current Secretary of Healthcare Associates in Medicine, P.C. and a member of the Board of Directors for Orthopaedic Associates, will be discussing common orthopaedic diagnoses for the upper extremities. "With the use of text messaging and related ailments continuing to rise, it is important to be able to correctly diagnose ailments affecting the upper extremities," said Dr. Ruggiero. "Only by correctly diagnosing the patient's symptoms can the physician then begin to offer the patient the proper treatment," he said.

This is the second presentation in four months done by our physicians for clinical professionals. In February, our pain management physicians, Dr. Germaine N. Rowe and Dr. Glenn D. Babus, both gave separate presentations on managing chronic pain. As one of the top health care providers for New Yorkers, we aim to maintain an open dialogue with the local medical community. By continuing this series of presentations we hope to expand the understanding of potential treatments available.

As a multi-specialty practice, we pride ourselves on the wide range of treatments we offer. Our physicians, who specialize in neurology, neurological surgery, orthopaedics and pain management are the community's preeminent providers of coordinated neurological, neuromuscular and musculo-skeletal services. Dedicated to providing our patients with the very best in medical care, we at Healthcare are committed to the ongoing advancement and development of our specialty services.
